

Hi Adele,

I hope you are well.

We had a 'near miss' yesterday on Dean Street, when a parent reversed down the Street and there were children crossing the road behind him.

We sent an email asking parents to be careful and considerate and have had this email sent in from a parent.

I told her we would send her message on to the Parish Council to see if you have any ideas!

I'm not sure 'resident parking' would help though!

Thanks Adele.

Hi

My son is in year 2 and the situation with getting him to school is turning into a great concern.

I realise it is not the schools fault you are situated where you are but i think should be involved in the safety of children going to school.

I dont know who to go to maybe trawden parish council but do feel that something needs to be done.

Im surprised there hasnt been a child severely hurt. There are so many cars up and down, parking illegally on Dean st, they shouldn't actually park on pavements.

Should there not be a resident only rule implemented between 8 and 915 and 245 and 345?

Im sure Trawden being so community minded would help facilitate as they could. Has there been consideration for community centre or pub being used? For those who don't live in Trawden?

I feel you having registration from 0845 to 0900 would facilitate this.

If there is anything I can do to facilitate something please let me know
