

Item 9 B and C

Hi Adele

Just a couple of thoughts

Re' parking you mentioned getting a bollard at the meeting... I can promise you that the staff of the cafe will not be parking on the space mentioned. My concern with any proposed bollard(s) would be regarding the restriction of the open space currently available for the customers access. Many of our consistently regular customers are elderly and disabled and I fear any obstructions will cause them difficulty.

Another genuine concern I would like to express, regarding customer/general public safety is the surface of the ramp/driveway down approaching the cafe. It is extremely slippery even in dry weather conditions and I have personally witnessed, on more than one occasions, accidents happen.

Kind regards
Tracey
