

Item 10M

Track and area where we park
To Adele Waddington

Hi Adele,

The potholes are filled now. Thank you again to Barry for providing the stone.

As you know I want to tidy the parking area we use with your permission.

I would like to plant the area around it but would need to spray the grass and weeds so that the plants will survive.

I want to plant a rhododendron or two and some buddleias that are very good for wildlife.

At some point it would be good to get a proper edge to the parking area too.

May I spray the grass and weeds immediately around the parking area and plant the buddleias and rhododendrons. The area will be greatly improved for everyone.

This will give a basic structure of planting and I can send you a plan for the edging and other planting when I have finished it.

All the best

Mel
